

Welcome To Build It, Solve It!

Thank you for signing up for Build It, Solve It!

My name is Ashley Didion and I will be the instructor for this camp. I am looking forward to working with your child.

My contact email is adidion@emanschool.net should you have any further questions about the camp. I would be more than happy to answer them as quickly as I am able. For immediate needs, please contact the camp Director.

A little about me.... I currently am a first grade teacher at Eman Schools in Fishers, Indiana. This is my sixth year as a first grade teacher. I previously worked at Park Tudor as an assistant in first and second grade. This is my fifth year teaching at the Park Tudor Summer Camps. I enjoy being outdoors and traveling around the world. I am excited to be back this summer, working with your children!

Camp Dates	July 2 nd - 6 th No class July 4th
Camp Times	9:00 - 12:00

I am excited to spend the week with your child building. Are you ready for a challenge? In small groups you will work together to face science and engineering challenges that will ask for creativity and problem solving. Each day, your team will be given a new design task to solve using a certain set of materials. One such challenge may be designing and building a car run by a balloon that travels along a ramp. If you like to tinker, invent and create, join us in the design lab.

Our general parent welcome letter can be found on the website, which will answer questions about **pick up and drop off**. If your child has specific medical needs, please alert our Director, Stephen Greiner (sgreiner@parktudor.org) or the school nurse, Cindy Pauszek (cpauszek@parktudor.org). If you would like to include me on these medical needs, feel free to cc me.

See you soon at camp!

Sincerely,
Ashley Didion
